

## **Save the date for Forward View: Vision and Eye Health**

### **The Vision UK and RSM conference**

In the spirit of collaboration and co-production Vision UK and the Royal Society of Medicine will be co-hosting Vision UK: A Forward View on the 9<sup>th</sup> October 2019.

This national conference will be themed around the four strategic aims of Vision UK:

- Evidence and statistics
- Research, cures and treatments
- Services, support and care
- Public perception of sight loss

Speakers will be from a range of organisations and specialities and there will be plenty of time for interaction, questions, answers and networking. We will be presenting awards for excellence around sight loss and eye health at the after-conference reception. Further details on these will also be released soon.

The conference will be at the Royal Society of Medicine in London and we look forward to sending out a full agenda and to welcoming you on the day.
